

Today is an exciting day for Sozio, Inc. & Alpine Aromatics!

We are proud to announce that as of May 11, 2011, Sozio has completed the acquisition of Alpine Aromatics.

Sozio, Inc. was founded in 1757 in Grasse, South of France, we have over 250 years experience in the world of perfumery. For over 50 years Alpine Aromatics has been a responsive and trusted business partner in the fragancing industry. Both, Sozio and Alpine are about quality fragrances and great Customer Service. As a combined Company we intend to strengthen and expand our global presence. The combination of Sozio's global presence with Alpine's domestic strength will provide our clients with the best offerings from each company. This partnership is also expected to result in greater manufacturing efficiencies and customer satisfaction. We will continue to build upon our outstanding Customer Experiences and strong and unique partnerships. While we will operate separately for a time, Sozio and Alpine are now one family and our commitment to creating the best Customer Experience is stronger than ever.

Over time, and with the appropriate notices, we'll merge Sozio and Alpine, with Sozio eventually operating from Alpine's Piscataway location. Until then, nothing will change; Customers and suppliers of both companies will continue to work with each company separately as they do today while we work to integrate. With a larger and stronger combined network, including international facilities/manufacturing, automated sampling and production, the unification of the two companies will create a superior experience for all current and future customers. Rest assured, we will communicate with all customers as we near milestones in this process. We look forward to working with you!

Merger Highlights:

- **For now, nothing will change; it's business as usual.**
- **Appropriate notices will be made during the merger process.**
